

YOGESHWARA B

Bengaluru, Karnataka, India | +91 8197797230 | yogeshwara567@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Objective

Final-year Computer Science and Engineering student with hands-on experience in blockchain development and distributed systems. Skilled in designing, implementing, and testing smart contracts, working with decentralized architectures, and integrating blockchain components with full-stack applications

Education

Alvas Institute of Engineering and Technology — B.E. in Computer Science and Engineering

Moodbidre, Mangalore | 2022–Present

Core Competencies

Soft Skills

Communication, Leadership, Adaptability, Teamwork, Creativity, Documentation

Web Development

HTML/CSS, JavaScript, React.js, Tailwind CSS, Node.js

Blockchain Development

Solidity, Smart Contract, Ethereum & EVM fundamentals, Web3.js, IPFS, Ethers.js, OpenZeppelin

Tools

Git, VS Code, Postman, Docker (Basic), Ganache, Remix, Metamask, Hardhat

Projects

ArbiNet - IoT Driven Arbitrage Trading System

[Repo Link](#)

Stack: Node.js, Arduino UNO, Binance API + KuCoin API, React.js, IoT Hardware (LED, buzzer, LCD, buttons)

- **Phase 1:** Built a real-time crypto price monitor across multiple exchanges (Binance and KuCoin) using Node.js and Arduino UNO. Detected arbitrage opportunities and displayed price variations on a 1602A LCD with corresponding LED and buzzer alerts.
- **Phase 2:** Automating trade execution based on detected arbitrage opportunities by integrating exchange APIs, focusing on minimizing latency and optimizing transaction costs.

Decentralized Crowdfunding Platform (Web3)

[Repo Link](#)

Stack: Solidity, Hardhat, Ethers.js, React.js, Tailwind CSS, IPFS (Pinata), MetaMask

- Developed a decentralized crowdfunding platform enabling campaign creators to raise funds securely using Ethereum-based smart contracts.
- Integrated IPFS (Pinata) for decentralized storage of campaign data, images, and metadata.

Publications

"A Comprehensive Review on Blockchain in Computing: Integration with Cloud, Edge, and Fog Systems"

IEEE-sponsored 3rd International Conference on Artificial Intelligence and Machine Learning Applications (AIMLA-2025), K.S. Rangasamy College of Technology, Tamil Nadu, India. [\[View Publication\]](#)

Experience & Activities

Community Leadership

- Led community outreach initiatives, organizing mobile awareness campaigns at government schools to promote digital literacy among students.
- Conducted a hands-on workshop on Web Development for 60+ students at the college level.
- Event Co-ordinator and contributed in 3 events conducted by CSE department

SAP Hackathon — StateHub Round Qualifier 2025

- Qualified for the StateHub round by outperforming 40+ teams in the initial college-level selection phase.

Language Proficiency

- English (Fluent), Kannada (Native), Hindi (Conversational), German (Basic – A1)

Certifications

- Solidity Mastery: Foundations to Advanced Smart Contracts – Coursera, JAN 2026
- Cryptography – Coursera, OCT 2025
- Penetration Testing, Threat Hunting, and Cryptography – Coursera, OCT 2025
- Android Enterprise Certified Associate – Android Enterprise Academy, Jun 2025
